SUMMARY

Software Developer with 5+ years in the finance industry, building internal business applications, backend API services, and automation tools with .NET, SQL Server, and Razor. Experienced in microservices, system integration, and migrating legacy applications to .NET 8. Uses AI agents such as Claude Code, Codex, and Kilo Code across planning, coding, testing, and documentation to ship stable features faster.

EXPERIENCE

IT Developer, PT. Mega Central Finance — May 2022 - Present

- Designed and developed the Insurance Service microservice, covering backend APIs and frontend implementation.
- Migrated legacy console applications to .NET 8 for better performance, maintainability, and long-term support.
- Built data synchronization between vendor and internal applications, with monitoring for unsynchronized data.
- Developed stored procedures to automate data processing and improve performance.
- Turned requirements from users and the Project Manager into functional and technical designs.
- Ran system testing and fixed bugs to improve performance, stability, and reliability.

IT MIS, PT. Mega Central Finance — May 2021 - June 2022

- Provided data, built SQL queries for reporting and operations, and solved data issues for business users.

PROJECTS

Insurance Service — Internal Core App

Dedicated microservice for insurance cover processes with backend APIs and frontend. Used Codex to speed up UI work.

Tech: .NET 6, C#, SQL Server, REST API, Swagger, Microservice, Codex

Monitoring App — Internal App

Monitoring page that tracks unsynchronized data between vendor and internal applications for operational follow-up.

Tech: .NET 8, C#, SQL Server, Vue.js, Swagger, Codex

Console App Automation — Internal App

Generates Word and PDF memos for the company's EMemo web application; migrated from .NET Framework to .NET 8.

Tech: .NET Framework, .NET 8, C#, SQL Server, Word/PDF Automation

Epayment — Internal Finance App

Added upload modules and finance workflows, integrated with other internal systems, and maintained daily finance features.

Tech: .NET Framework, C#, SQL Server

THUANGARCHITECT *(thuangarchitect.com)* — Freelance

Fast, responsive portfolio for a Medan-based architecture studio, with optimized galleries, SEO setup, and automated tests.

Tech: Next.js, TypeScript, Tailwind CSS, Playwright, GitHub Actions, Netlify, Claude Code

Fintrac *(fintrac.my.id)* — Freelance

Personal finance app with installment tracking, receipt-photo drafts, an AI assistant over the user's own records, and CSV/Excel export. Built end-to-end with Claude agents.

Tech: Next.js, TypeScript, Supabase, Tailwind CSS, Vercel AI SDK, Playwright, Claude Code, Obsidian, Context7

SKILLS

Backend	C#, ASP.NET Core, .NET 8, .NET Framework, REST APIs, JWT Authentication
Frontend	Razor, JavaScript, HTML, CSS, Tailwind CSS
Database	SQL Server, PostgreSQL, Redis, Stored Procedures, Query Optimization, Supabase
Architecture	Layered Architecture, Repository Pattern, Service Pattern, Microservices, System Integration
AI Agents and Models	Claude Code, Codex, Kilo Code, Orca, GitHub Copilot, 9Router, Claude, Gemini; free, open-source, and frontier models
Tools and Infrastructure	Visual Studio, VS Code, Git, Postman, Swagger, Docker, Jenkins, Cloudflare DNS

EDUCATION

Bunda Mulia University, Information System, Jakarta — 2014 - 2018
